

# Yearbook Gears Plans Full Speed Ahead

## Engineering School Offers Twelve New Courses Today; Trustees Aid Defense Plans

### President Marvin Gets Financial Aid From Trustees

IN A BOARD OF Trustees meeting here last week, Dr. Marvin was given the authority and financial aid to keep defense work going and to protect students.

The University will be supplied with canvas curtains for all buildings, fire-fighting equipment, and a special generating system for emergency lighting at the hospital as well as a battery service to supplement the regular service.

#### Building Donated

The University Defense Unit which is part of the West-End district unit has given the red brick building at 2027 H Street for use of wardens. Wardens of the district will receive first-aid instruction and fire-fighting instruction at classes at the University. Additional classes in first-aid will soon begin here and will be organized from volunteers who register at the Defense Office in the Junior College.

All members of the University including those who have had no training may join these classes. Thirty first-aid stations and two student fire-fighting groups are to be organized here. Already a concentrated course has been given to seventeen faculty and student body members during the holidays and these will be given instructors' certificates.

Faculty members receiving certificates are Drs. Ira H. Hansen, Paul W. Bowman, James H. Fox, Donnell B. Young, Ralph E. Gibson, and Messrs. Charles W. Bliven, Frank Fortinatto, and Lloyd W. Hazleton.

#### Students Practice First-Aid

During the city-wide blackout last Tuesday the first-aid class was in session and learned how to handle the special problems of first-aid caused by enforced darkness. The blackout here was so successful that a photographer sent to take pictures of all the buildings in which the lights were on were forced to leave the University without a single picture. Girls in Strong Hall, having been told to remain on the second and third floors when the alarm sounded could not go down to meet their dates sitting in the pit-clear signal was given. The windows along the stairway have been boarded up and an emergency lighting system has been installed there for three weeks.

In the Pan-Politik broadcast Christmas night Jerry Locke, Ward McCabe and Bob Geran held a forum discussion on civilian defense.

## Economics Group Initiates 15 Men For Membership

ARTUS, the economics honor society, inducted into membership fifteen Columbian College students last month at the University Club. The new members are: Bernard Beckler, Carter M. Bowen, Joseph A. Clority, William E. Conrad, Albin P. Fenderson, Daniel R. Rusfeld, Byron R. Hayden, Kenneth A. Kenyon, William N. Morell, Jr., Robert S. Morrison, Harold A. Naisbitt, Jesse A. Pavis, Salvatore Tesoriero, John P. Thompson and William Lerner.

After the induction ceremony, Dr. Redvers Orie, distinguished Oxford University economist, here with the British Purchasing Commission, gave an informal lecture on "The Impact of the Managerial Revolution on British Society." The discussion which followed brought forth many interesting questions about the organization of the British war economy.

## Civilian Defense Set in Motion As Dorm Spotters Find Fire

TWO STRONG HALL girls, part of an all night watch for fires on the roof of that building Christmas eve, sighted a fire in Georgetown about three in the morning Christmas day and turned in the alarm to the fire department. The girls, Mary Lou Krehbiel and Ann Miller, on watch from two till four a.m., saw the blaze and, as prearranged, awakened the messenger, Zetta Walker who sped to the dormitory switchboard and reported the fire.

Under instructions from Donnell B. Young, director of civilian defense at the University, an all night watch on the roof of Strong Hall was organized by Mrs. Jessie Lee, house mother. It was expected by

President Marvin

## Alumni Play Prominent Part In War Scene

ALUMNI OF THE UNIVERSITY are now, more than ever playing prominent parts in the defense of our country.

KENNETH YEARNES, who received his A. B. from the University in 1929, was last reported to be among the Americans taken into custody by Japanese military authorities in occupied China. Mr. Yearnes, American consul at Swatow, was one of 60 Americans reported by the State Department to be held by the Japanese.

While attending the University, Mr. Yearnes was employed in the business office of a local daily. In 1929 he took the State Department's foreign service examination and was the only Washington man to pass.

His first assignment sent him to Naples, Italy, as vice consul. Later he returned to Washington and then went to China, serving at Shanghai, Nanking, Tientsin and Swatow.

According to information received in Chungking, Mr. Yearnes and other Americans in Swatow are held in custody by the Japanese and are reported to be well treated.

Japan has given assurances that she will accord American diplomatic and consular officers in her hands proper treatment on the basis of reciprocity—that is, they are to be treated as well as are Japanese officials in American jurisdiction. Japanese consular officials in this country are being concentrated at Hot Springs, Va. Efforts have been under way since soon after the war began to arrange an exchange of representatives of the two countries. American officials in Japanese-occupied China, including Mr. Yearnes, as well as the embassy and consular staffs in Japan proper would be returned to the United States at the same time Japanese officials here were sent back to Japan.

WILLIAM J. PARTRIDGE, who was registered in the Division of University Students from 1930 to 1932, has volunteered for service with the Civilian Technical Corps and is now in Great Britain.

"The Civilian Technical Corps is a group of skilled American technicians who volunteered to help operate and keep in repair equipment needed by the British Army, Navy and Air Force. Among the equipment they handle in England, is the famous secret weapon, the 'Radiolocator,' which is used to locate Nazi bombers before they drop their bombs."

GEORGE O. GRAY, B. A., '38, Ltd., '39 is now assistant to the legal adviser to the United States High Commissioner to the Philippine Islands. His fate after the Japanese invasion attempt is unknown.

### 1,100 Enrolled In 28 Courses Says Hitchcock

THE UNIVERSITY, in cooperation with the United States Office of Education, will offer 12 new defense courses through its Engineering Extension Division, starting today.

Professor Frank A. Hitchcock is director of the Engineering Extension Division at the University.

This increase represents the third time the University has stepped up the number of national defense courses since the program was inaugurated a year ago. The 12 additional courses bring to 10 the total number being offered by the institution.

#### Government Pays Tuition

Tuition is paid by the government on all the courses, most of which last for 15 weeks. No college credit is given in the courses, but certificates of attainment are issued at the close of each term. Minimum requirement for admission to any of the classes is two years of college engineering training or its equivalent in industrial experience.

More than 2,700 have been enrolled in science, engineering and management during the past year and approximately 1,100 are taking one or more classes at this time.

#### New Courses Listed

Professor Hitchcock announced the following courses to operate during the next term:

Civil Engineering—Photogrammetry, Cartography, Map Making and Interpretation; Concrete Inspection and Testing; Construction Materials; Elementary Structural Design—Detail, Theory of Reinforced Concrete; Structural Steel Design; Advanced Reinforced Concrete; Water Supply and Sanitation; Fire Protection; Stress Analysis by Moment Distribution; Contracts and Engineering Relations; Fundamentals of Industrial Safety Engineering; City Planning—Site Planning, Comprehensive Planning—Design and Coordination in Land Planning and Related Factors; Planning Seminar; Structural Welding Design; Slope Deflection, and Inspection of Defense Metals.

Electrical Engineering—Advanced Electrical Theory; Advanced Engineering Mathematics, D. C. and A. C. Circuits; Electrical Engineering Review; Electrical Motor Application and Control; Elements of Radio Communication; Introduction to Engineering Mathematics; Introductory Survey of Radio; Lighting Equipment and Applications; and Radio Communication.

Mechanical Engineering—General Engineering Drafting; Heating, Ventilating and Elements of Air Conditioning; Internal Combustion Engines; Ship Construction; and General Welding Design.

Ordnance—Advanced Mechanics of Artillery Design; Metal Components of Ammunition; Ordnance Material; Propellants and High Explosives; and Small Arm Weapons and Ammunition.

## Engineers Collect \$45 for Library

CONTRIBUTIONS amounting to \$45 have been received by the Engineering Library Fund from engineering school graduates. It was announced here yesterday by William J. Ellenberger, president of Engineering Alumni Association.

## GW Professors Make Tracks From University To Attend Conferences During Holidays

### Doyle Becomes Editor of Spanish Teacher's Paper

USING THEIR vacation time to good advantage, several University officials attended meetings of various organizations throughout the country.

Dean Henry Grattan Doyle, professor of Romance languages, attended a meeting of the American Association of Teachers of Spanish in St. Louis the 26th and 27th and later a meeting of the Modern Language Association of America in Indianapolis.

Dean Doyle was elected editor of Hispania, the official publication of the American Association of Teachers of Spanish. Dean Doyle has been an associate editor of Hispania since 1922, and was national president of the Association in 1930.

At Indianapolis, Dean Doyle made his annual report as chairman of the Commission on Trends in Education of the Modern Language Association of America.

Dean Doyle also reported as co-

## Dr. Najera To Speak At Confab

### Inter-American Conference Held For Fifth Year

SEÑOR DR. DON Francisco Castillo Najera, the ambassador of Mexico in Washington, will be among the speakers at the fifth annual Inter-American Conference sponsored by the Inter-American Center of the University, January 12 and 13. George Howland Cox, director of the Center, has announced. Conference sessions will be held in United States Chamber of Commerce Auditorium at 8 o'clock each evening.

#### Three Speakers Listed

Speakers and their topics for the January 12 meeting are: William L. Schurz, "How Contacts Are Winning Accord for the Americas"; Manuel Jose Mendez Guardia, "Latin American Youth Looks at the United States"; and Joshua B. Powers, "What the Latin American Editor Expects from the United States."

Mr. Schurz is acting assistant chief of the Division of Cultural Relations of the Department of State. Mr. Mendez is an honor Panamanian student at the University and a special correspondent of La Espresso de Panama in Washington while Mr. Powers has been representative of foreign newspapers, particularly Latin American, in New York for the last 25 years.

#### Radio Manager Speaks

Ambassador Najera will address the conference January 13 on "Future Mexican-United States Relations." "What Radio Is Doing to Tie the American Nations Together" will be discussed by John R. Sheehan, manager of radio stations WGEO and WGEA, General Electric Co., Schenectady, N. Y., and James S. Carson, vice-president of the American and Foreign Power Co., Inc., of New York, will speak on "Tomorrow's Shape of Things in Latin America."

Members of the panel for January 12 are: Albert W. Atwood, former editor and feature writer of the Saturday Evening Post; Luis Sigfried Quintanilla, associate in Romance Languages at the University; and Elmer Louis Kayser, dean of University students. The panel for January 13 will include: Frederick M. Felker, dean of the School of Engineering; Henry Grattan Doyle, dean of Columbian College; and Howard S. LeRoy, a member of the Bar of New York and Washington.

#### Is Fourth Conference

The conference, which started in 1937 and which has received tremendous public response since its

(See CONFERENCE, Page 2)

## New Year's Dance To Be Held Friday

A NEW YEAR'S dance, the last this semester in the newly inaugurated program of all-University dances, will be held Friday night in the Student Club. For the first time an admission charge of twenty-five cents will be made.

Jack Morton's orchestra will furnish music. The dance is scheduled for nine o'clock.

An unexpectedly large number attended the recent Christmas dance, on which occasion toys collected for admission were put in Food Drive baskets, Miss Ruth Atwell, director, announced.

The all-University dance program is expected to be continued next semester, according to Miss Atwell.

## Army Calls and Navy Lures, Our Mahoney Seeks Eye-Cures

### Hatchet Editor Resigns Post As Draft Hits

THE HATCHET had another reason to remember Pearl Harbor and the foul deeds perpetrated by the likes of Atrocious Adolf and his Roman valet when the national emergency caused the resignation of Haynes Mahoney from the Board of Editors yesterday. A ripe draft status was cited as the reason.

He is slated for induction into the Army by the first week in February.

#### Former Florida Student

Mahoney was elected to the Board of Editors in the spring of this year, after having served on The Hatchet for two years. He came to the University in 1939 from the University of Florida where he had worked on the newspaper and yearbook.

His resignation left the Board with two members but the vacancy will be filled as soon as the Publications Committee approved the promotion of one member of the Sub-Editorial Board.

Haynes is considering enlisting in the Navy, but his eyesight is not

Haynes Mahoney

up to necessary standards. To improve his vision Haynes is at present taking cod liver oil pills and eating raw carrots. He says that, "they are rich in Vitamin A, but this is a hell of a time to start. I hope I make it!"

## Kappas, Phi Sigs Capture Charity Cups

KAPPA KAPPA Gamma and Phi Sigma Kappa led the race for Food Drive contributions from sororities and fraternities respectively as the annual charity effort closed with ninety needy families receiving Christmas baskets.

The Drive secured \$282 on the campus and from Greek letter organizations, a sum considerably less than last year's total, announced Jack Bradley, co-chairman of the affair with Don Wallis. Although the campus contributions were up to par, the sorority and fraternity support was very poor. Part of the great drop from the 250 families helped last year was due to the 81c increase in price of food baskets.

#### Proclaim Drive Success

"We feel the Drive was a success anyway," said Jack Bradley, "since all charity is at a lowebb due to the fact that everybody's mind is on something larger than a food drive."

Had passing at the Oklahoma A and M game added \$26 to the fund, already increased \$21 by the Wake Forest game earlier. Gerry Lock, alone, collected \$30 on the campus.

Contributions from campus organizations included: Kappa Kappa Gamma, \$39.15; Phi Sigma Kappa, \$72.50; and \$8 worth of clothing; Sigma Alpha Epsilon, \$7.50; Sigma Nu, \$3.66; Pi Kappa Alpha, \$5.05; the Varsity Club, \$2.03; Delta Zeta, \$10; Chi Omega, \$12.75; Pi Beta Phi, \$23.67, and \$4 worth of clothing; Phi Alpha, \$5; Kappa Delta, \$8.15; The Rousers, \$47.20; Sigma Phi Epsilon, \$5.25; Tau Kappa Epsilon, \$10.06; W. A. A., \$3; and Chi Upsilon, \$2.

#### Cunningham Delivers

Alex Cunningham, who with five student helpers and two trucks took charge of the distribution of the baskets just before Christmas, was commended for his splendid work by the Food Drive chairman.

The Student Council will present cups to the winning sorority and fraternity at the all-University Prom.

The Phi Sigs will find their name on a new cup this year, having put the old one out of use by winning the Drive contest for the last three years in succession.

## Senior Class Meets Thursday

SECOND meeting of the Senior Class and first of the new year will be held Thursday evening at 8:15 p.m. in Govt. 101. President Dick Burns announced Sunday.

With the yearbook problem settled and February and June graduates assured of a final record of their university activities, the group will not get into full swing with its own organization, officials have announced.

Foremost among plans to be considered is adoption of a broad social program to be put into effect immediately for benefit of those students ending their college years next month.

Class leaders have urged a full attendance.

## Rev. Snyder To Be Chapel Talker Friday

THE REVEREND Henry William Snyder, pastor of St. Paul's Lutheran Church, will speak at chapel next Friday in Columbian House at 12:10 p.m.

Dr. Snyder, who was born in Baltimore, attended City College there and received his Bachelor of Arts degree from Johns Hopkins University in 1906. He later attended Gettysburg Theological Seminary and Gettysburg College.

Dr. Luther H. Snyder, oldest son of the minister, was formerly instructor in pathology at the University Medical School. William and Henry, younger sons, both attended Gettysburg College and were elected to Phi Beta Kappa. The former is now an instructor at Duke University and Henry is a student at Lutheran Theological Seminary at Gettysburg.

## Dr. Wilbur Weds Over Holidays

DR. WILLIAM ALLEN WILBUR, University professor emeritus of English, and Miss Marian Lund of Fort Myers, Florida, were married December 26th at Tazewell, Virginia. His son and daughter-in-law, Mr. and Mrs. William K. Wilbur, of Bluefield, West Virginia, attended the ceremony which was performed by the Rev. C. G. Gunn, pastor of the Westminster Presbyterian Church at Bluefield.

Dr. and Mrs. Wilbur plan to make their home in Washington.

## Miss Atwell Attends Meeting Of National Athletics Group

MISS RUTH ATWELL, director of Women's Physical Education at the University, attended the National Section on Women's Athletics in New York City on December 28, 29 and 30, where she presided as chairman of the Legislative Board. Representatives from schools and colleges throughout the country were present to discuss the problem of physical fitness and to make plans for an extensive program in the schools and colleges.

Miss Atwell presented the problem of physical fitness at the Women's Athletic Association Board meeting yesterday in Columbian House. W. A. A. President Kitty Hershey announced the appointment of a defense committee of the following board members: Caroline

## Co-editors, University In Accord

### Photo Deadline Is February 1; Contracts in Mail

WITH FULL UNDERSTANDING between the University administration and Cherry Tree editorial staff effected, yearbook leaders have flashed the "go" signal on their work schedule.

Previously, it was charged by Cherry Tree editors that a lack of coordination between groups concerned had caused delay in completion of final plans for the book, in a statement in the pre-holiday issue of The Hatchet. The article, which accused administration officials of "passive resistance" in its attitude toward the publication, has since been retracted after personal conferences had straightened out the middle.

#### University Not Discredited

In a letter to University President Marvin, co-editor Phyllis Dorton said, in effect, that The Cherry Tree staff did not intend in any manner to discredit the University administration or accuse it of failing to support activities and regrets that a misunderstanding was caused by the statement.

Meanwhile, co-editors Margaret Copeland and Phyllis Dorton, the latter approved by the Publications Committee last week, have revealed completion of plans for taking pictures of seniors and other students for inclusion in the annual.

THE ABSOLUTE deadline for all photographs for The Cherry Tree is Feb. 1, 1942. (Ed. Note: And those Tree-Book editors aren't kidding, either!)

Photographs this year will be taken at the Edmonston Studio, 4th floor of 1333 F St., N. W. The yearbook editors are confident that the students will be well pleased with the results of the new photographer.

Seniors will be notified this week of the photograph deadline. All fraternity, sorority and other organization members are hereby warned that they must observe the same deadline.

Contracts for page space have been sent to all organizations on the campus through Student Club mail boxes. Those organizations which do not have mail boxes will receive contracts through the mail to the homes of officers. In order to get space in the annual, all organizations must return the contracts to the Comptroller's Office by Jan. 15, without exception.

#### Features Informal "Shots"

Campus life will be represented in the book informally through the medium of photographs and candid snapshots. In order to make the book fully representative of the entire University, photographic editor Patty Moore has urged all groups to submit as many snapshots as possible of the activities of the organizations.

Particularly welcome will be interesting shots of rush parties, fraternity informal (very informal) dances, exchange parties, hayrides, as well as anything else that shows what makes the campus go 'round.

#### More Pictures Urged

Miss Moore has suggested that each organization appoint a photographic manager to see that pictures are taken of all important functions. She stressed the fact that the organizations will have to get things done in a hurry, because no photographs can be included if they are submitted later than March 1.

Members of the Cherry Tree staff will be in the Cherry Tree office from 4 to 5 p.m. every weekday to receive photographs. The Cherry Tree office is on the second floor of the old Art School building, next to Sorority Hall, between 21st and 22nd Sts.

Dean Henry Doyle

chairman along with Prof. Wilfred A. Beardsley of Goucher College on the activities of the Committee on

### Miami Is Scene Of Kayser Talk On Caribbean

pew professor of Public Speaking, attended the annual convention of the National Association of Teachers of Speech in Detroit. Dr. Yeager is president of the organization.

Dr. Stuart Henderson Britt, professor of psychology, attended meetings of the American Sociological Society in New York.

Dean William Crane Johnstone addressed on the 27th a meeting of the American Political Science Association on the Far Eastern situation, also in New York City.

Three members of the history department attended meetings of the American Historical Society in Chicago. They are: Dean Elmer Louis Kayser, Dr. Lowell Joseph Ragatz and Dr. Alva Curtis Wilgus.

Dean Kayser addressed a Pan-American Conference in Miami on January 2nd and 3rd on the subject, "Problems of the Caribbean," the Place of the Modern Languages in American Education.

"I wholly disapprove of what you say, but will defend to the death your right to say it."—VOLTAIRE.

## Cherry Tree Blooms Again

● A CAMPUS-WIDE SIGH of relief, expected to get under way with the publication of this issue of The Hatchet, will constitute the finishing touches of the apparently annual "Cherry Tree Muddle." The 1942 Senior Class and other interested groups and individuals may sit back, as the yearbook editors concentrate on publishing the Cherry Tree.

For there will be a Cherry Tree this year! Presumably, every misunderstanding has been cleared up. The statement released by the yearbook editors immediately before the Christmas holidays to the effect that the Administration was, in part, to blame for the delay in drafting final plans, has been retracted. An apology has been sent to President Marvin.

The charge that the delay was, in part, due to the inefficiency of the yearbook staff has been answered with a slight shake-up in Cherry Tree personnel, and energetic, enterprising Phyllis Dorton has been made co-editor, along with former editor-in-chief Margaret Copeland.

Last year's tiff with the Interfraternity Council was settled early in this year's wrangling and the agreement reached was acclaimed as beneficial to all parties concerned, with Good-Will dripping on all sides. So it's all over.

Of major concern, however, is the prospect of future misunderstandings. There is no guarantee that the University will not again be haunted by "There may not be a Cherry Tree this year." It is imperative that settlements be made permanent and that the only question facing us be, "Will the book be better than the one dose bums got out last year?"

It is imperative because it's only common sense that these headline finishes are not always going to wind up on the right side of the ledger and that once we lose the Cherry Tree it's going to take an allied victory and black magic to get it back again. It's easier to keep the status quo than to change it.

The Hatchet believes that the solution rests entirely with the students. A yearbook is a student proposition, 101 per cent. Well, there is only one thing that will insure a Cherry Tree on the campus, and that is student support. There is nothing abstract about the word "support." In this case it's got to be active support. It doesn't mean that you have to give up your lunch hour to go around waving a banner reading "Aid the Cherry Tree." It doesn't mean you have to sacrifice your social life to sign up as a Cherry Tree warden.

It does mean, however, that if you are supposed to have your picture taken, you are going to go down and get your fizz snapped before the deadline. And it does mean that if you are a senior, you will buy the book. And above all, it means that student groups will have to stop fighting each other. A united student front can get most everything it goes after. This is a truth which would have been recognized by the cave men if they had been fortunate enough to think up universities.

Well, this year we are going to have a Cherry Tree. The amount of support displayed by the students this year will perhaps decide the fate of the book. It is a shame that there should be any question of the existence of a yearbook at a university of this size, but there is. There is, however, the comfort of knowing that there is plenty we can do about it. Something must be done. Something can be done. Something ought to be done. It's logical.

## No Blackout Here

Close to a month ago two thousand students crowded into the gym to attend the mass meeting called by President Marvin at which he rededicated the University to the service of the country.

In short impressive speeches, Administration and student leaders expressed their recognition of the emergency and their desire to cooperate in every way.

The Hatchet recalls a significant statement made by William Crane Johnstone, Dean of the Junior College. Said he, "There shall be no blackout of education." In these words lie a charge to every professor and student at the University.

Perhaps Dean Johnstone was recalling some of the ridiculous measures adopted by this country and by influential persons during the last war.

Among these were included the omission of German from many high school curricula. History books were rewritten, and the frenzied flag waving that ensued compromised the very ideals for which we fought.

That we may avoid completely repetition of these follies seems too much to ask. Already we have witnessed attempts to stop performance of "The Mikado." The most we can hope for is that the universities lead the battle against such a narrow interpretation of patriotism.

To our professors we delegate the responsibility of guiding us through, clear-headed.

## A Roommate Is Indispensable If Necessary

By C. JULES ROSE

● YOUR ROOMMATE is the fellow who wears your ties, does your trig, and apologizes to your best girl for your short-comings.

He tells you all his troubles, from a strange pain he is experiencing at periodic intervals, which he fears is appendicitis, to what his latest heart-throb told him while sitting in the dark last night.

Whenever there is an unpleasant task to be done he won't hesitate letting you in on it, anymore than you would have any qualms of conscience about passing the buck to him.

It's 50-50 all the way; what's his is his, and what's yours is half his. Together you spin schemes of the ways and means available to get the jump on the rest of the gang, whether it be at seeing a new show, winning a ping pong tourney or passing an exam.

Ain't They Terrible?

Fortunately, you hate the same people so, when lost for a pleasant occupation, you may always run down Jimmy, the meatball, who would double-cross a blind brother; Dill, the drip, who boasts of having kissed every girl on the campus, and Sammy, the goon, who does nothing but study and as a consequence makes a disgusting number of "A's" each semester.

When he gets a box of goodies from home you both have a feast, and how you gripe if his mother bakes coconut cake when she knows that you like chocolate!

Into the wee hours of the night in those rare, restful, confidential minutes you unveil your soul to each other and finally say, "Wake me up when you get up, pug nose!" (And if he dares follow that order, how enthusiastically you will cuss him out.)

Into the realm of high finance you deftly delve daily. It doesn't matter which one of you is broke just so you're not both hard-up at the same time, and when you are, black are the plots of robbing banks which you hatch. Finally you agree to get a small loan from Artie, the artful penny-pincher, who will lend anyone two bits if he gives him a few quarts of his blood as security.

Not Necessarily

Rare is the time when both of you are mad at the same person. There is usually one who can be a go-between patching up old friendships by communicating with the enemy and negotiating a settlement of the dispute at hand.

Double dating with your roommate can't be beat. You take turns at begging each other to tell stories of such-and-such, make statements to which the other can wittily snap back at and he hints that you might be persuaded to imitate Bing Crosby if properly urged.

You tell Margolis, the haberdasher, "I won't decide on this sport coat today. I'll have to find out if it fits my roommate first."

As you don't see enough of each other nine months a year, you spend your vacations together; in fact, even a few days like Christmas or Easter he insists that you might be persuaded to imitate Bing Crosby if he is at your home, or you at his.

When he has a cold, you take a bowl of soup and a couple doughnuts up to the big bum and when he swears he's getting pneumonia you assure the tramp, "No such luck! Only the good die young!"

If two books are to be read, each one of you reads one then exchange reports.

A Simple Method

If you take a lab course, it is simple to copy his answers and you know they'll be darn near right for he gets them from Luke Lucifer, the smartest kid in the class.

You say nothing about his using the same pipe he has had since high school and says naught when your electric razor drowns out whatever radio program he happens to be listening to at the moment.

When you start bawling him out for losing the theme you worked on all night, he asks if that isn't his \$3.50 shirt you're wearing and "How did the ink get on it?"

When your teen age imbecile kid brother was here for a week he put up with the muddlebrain, showed him around and left him under the impression that he was rooming with "an all-right guy." You get the worst of it when his sister, ugly-faced Sadie, came to town and you had to show her how to paint the town red and hear how everything was from the Lincoln Memorial to the honkey tonk show at the Lotus, simply "Too, too divine!"

There are times when he gets sore, when his gabbing gets on your nerves, when his constant pipe lighting has you on edge, when his bragging continues after you have thrown a book, two pillows, and a paper weight in his general direction. He takes a wee bit from you when you get in at 3 a.m., rousing him from a sound sleep (and he with an exam the next day), when you sing the song of the week twenty-four times in each of the twenty-four hours of the day, and when you fill his bed with peanut shells.

## Sorority Pledges To Frolic Thursday

● THE JUNIOR PAN-HEL Goat Show will be held Wednesday at 8 p.m. in the gym. The pledge class of each of the ten sororities will give a humorous ten-minute skit. There will be a general admission charge of ten cents. The judges have not yet been announced.

The Pan-Hellenic Council is sponsoring an A. A. U. W. defense dance for American soldiers, who have been to college, which will be held January 10.

## BAR TO BOARDS

WANT TO BE A STAR?  
TAKE LAW!  
THESE FORMER LAW STUDENTS  
NOW APPEAR BEFORE THE COURT  
... OF PUBLIC OPINION ...

## Campus Caravan

● WE'RE OFF again on the Campus Caravan—here, there, and everywhere—dipping in for a five minute call on our chums of distant campuses.

Somebody (members of a Statistics Class?) conducted a survey at a northern girls' school and found that the 700 coeds use 175 pounds of lipstick a month. A breakdown of figures revealed that 43 per cent is digested along with regular meals, another 27 per cent goes to Kleenex, and the remaining 30 per cent to "other places." Foreign soil, no doubt.

Faculty Member As Mascot

Since freshman year the seniors of Elmira College have felt that their sponsor, Miss Fincher, has brought them good luck; and—inasmuch as mascots are supposed to bring good luck—it seemed only natural that she should be presented as class mascot on Class Day.

Faculty member as mascot? Sounds a little screwy—but maybe it's just what G. W. needs!

"Can this happen here?" shrieked the Muhlenberg Weekly, as it recounted the pathetic tale of the end of "Summer." The trouble started when "Summer," a modern classic bronze nude by the French sculptor, Aristide Maillol, was loaned to Denver University by the Denver Art Museum. "She doesn't belong in the library," stormed the profs at faculty meeting. "Students go there to study, not to be distracted by art or anything else." "Summer" was finally removed to the Museum, where she is so highly regarded that she is insured for \$30,000.

Gag of the Week

The gag of the week, according to the Children's Corner in Catholic U's Tower, comes from one of those early morning math classes, when all are in high wits. The prof found it necessary to explain again the decimal system to one of the freshmen from Connecticut. He wrote on the board 925. He then erased the decimal point to show multiplication by 10. "Now where is the decimal point?" he demanded. Replied the dreary-eyed frosh, "Why, it's on the eraser." Officials of William and Mary College, probably the strictest col-

lege in the country as regards regulations on women students, is worrying about the activities of the coeds during the blackouts which are to come, so the Flat Hat reports.

The Lousy Weed!

Delving into the history of the college, The Gettysburgian of Gettysburg found that shortly after the founding of the institution, there appeared on the campus an Anti-Tobacco Society which had for its purpose the abolition of smoking at college.

Still another survey. The Student Survey of America poll has found that while a plurality of college students favor voluntary class attendance, nearly as many would rather be required to sit through lectures and attend labs. Figures are these: Require a minimum, 41 per cent; Voluntary, 48 per cent; Require only some students, 11 per cent. As the students advance in grades, more of them form the opinion that only some students should be required to attend classes. Freshmen say 9 per cent, sophomores, 10 per cent; juniors, 10 per cent, and seniors, 12 per cent.

From the Swarthmore Phoenix—The college reacted to news of war in characteristic fashion, even to a typical remark from a blond freshman, "Those Japanese. They're committing Mata Hari."

So you complain about double-cut days before holidays. We see by a notice in the Alfred University paper that their students who cut on those days are penalized by the loss of credit hours. Count your blessings!

Plagued by a campus clock that varied as much as ten minutes during the day, Alabama Polytech officials set out to find the cause. What they found was that the clock, run by a pendulum was subject to fluctuation with the temperature because of its expansion and contraction. Nothing could be done about it, though, and so the clock is left on the campus as a curiosity.

And in the true spirit of the war, we find in the Georgetown Hoyas, REMEMBER PEARL, MICHIGAN 9169.

## FOOD FOR THE SOUL

By TEN BROECK

● THE PUBLISHERS are busier on new books now than at any time in the past twenty years. The burials of dead titles continue daily. Because when a war is declared a large percentage of the non-fiction becomes immediately passé and another large field of current material is in immediate demand.

Few will look back to see the books that held the spotlight six months ago, but perhaps it would be a good idea. For one of the major problems of the reader is the selection of interesting and authoritative non-fiction from an increasing myriad of well advertised material flooding the market.

This is particularly true of the college student who will have time for but a very few books in addition to his required reading. He wants a very small number of books with the greatest worthwhile content, be it informative, argumentative, or challenging.

In the past season we had "Berlin Diary" and "You Can't Do Business With Hitler." If we can select books of that calibre from the offerings of the next few months, we may benefit much and save dangerous procrastination. "No Other Road to Freedom" and others also hold the honored list as having been borne out as exemplary of authoritative and of deep insight and perspicuity.

But these problems are now obvious ones. The warnings of yesterday echo in the mystery of

the present and near future, and other dark and changing shapes cloud the mistiness of days all too close. The frontiers of the late nineteenth century were clearly etched in the consistency of the type of development which constituted the problem. Even the first World War was relatively lacking in complexity compared to the post-war world which we enter five or ten years from now.

We must begin to build. There are millions of separate ideas and solutions, there are daily changes which relegate many of these to sudden uselessness. "Yesterday is Dead" as Stuart Cloete said in one of the few books of the last year which retains contemporary prophetic value. We have problems of labor, reconversion to industry, social planning, international rehabilitation, and the question of international "federation of the world."

We are going to look to our leaders, we are going to expect new leaders. But if we wait until the tragedy of lack of preparedness catches us again, there will be little to save.

We are in era in which the problems and crises arise more quickly and the plans take longer. The challenge is greater, and as usual, the shadows of solution are going to be seen by a few with the insight necessary to understand, and the courage and foresight requisite to solution. They should command a careful and attentive audience, so reader scan the skies!

By HOLOOMB and RANDALL

● 1942 IS HERE. With it come new resolutions for a bigger and better year, and with it comes a more difficult year for us. Many of us will be forced to leave school due to defense work, or to join the armed forces, and those of us that remain must do that much more. Every-thing possible will be done to make it possible for us to continue school, even with the extended hours of work, since authorities feel the importance of an engineering training; so "keep grinding."

Many things happened this holiday. For one, there was the President's reception last Wednesday in honor of Dean and Mrs. Marvin. Indeed an event. Thanks, President and Mrs. Marvin; we are all deeply honored.

Secondly, we hear that there is furniture in the lounge, of what nature we don't know, but if it's there, that's something, so let's see some people there.

Thirdly, there was an initiation by Sigma Tau of Tomas (Jimmy) Pastoriza, Stanley Machen, and R. W. (Mickey) Shulte. We understand they all made great speeches at the banquet on December 20 (also the time of initiation). Congratulations, "men."

Fourthly, we hear that Julius Ritter has taken the final plunge. Should we congratulate, envy, or console him? We do all three anyway, and best wishes, Mr. and Mrs. Ritter.

Sixthly, the Engineers' Christmas tree was lowered and with it went many memories of work and fun.

That about winds up the holiday happenings, with the exception of the societies that had to work on the meetings for this Wednesday. With the war, plans had to be drastically changed, both the A. I. E. E. and the A. S. M. E. had to change their speakers. The A. I. E. E. had planned on having the chief engineer of the Radio Marine

Division of RCA from Camden, N. J., come down to present a demonstration, but due to the extra work caused by the war and due to the military nature of the subject, he could not come, so they obtained Mr. Emerson W. Thomas (G. W., '37, past vice-regent of the A. I. E. E. here at G. W., and now instructor at the Capitol Radio Engineering Institute, who will speak on "The Cathode Ray Tube and Its Applications." The A. S. M. E. had to cancel their originally planned speaker and we don't know who will take his place. We don't even know if the C. E.'s had to change their speaker or who will speak. But the societies will have their meetings at eight o'clock this Wednesday with refreshments. Sigma Tau will also have a meeting this Wednesday.

## Symphony Club To Mix Music

● SYMPHONIES of Mozart interspersed with modern music will hold the spotlight at the meeting of the Symphony Club Thursday at 8 p.m. in the Columbian House.

The program will consist of Concerto No. 2 for piano and orchestra by Brahms, Symphony No. 40 of Mozart, Eine Kleine Nachtmusik of Mozart, Stravinsky's Rite of Spring, and Night on Bald Mountain by Moussorgsky. It was announced by Matt Wise, president.

## Quint Faces Three Opponents on Dixie Swing

### Buff Meet Tiger Five Tomorrow

#### Drop Three Tilts To Western Foes During Holidays

• IN THE DEPTHS of their worst losing streak in the memory of the University's oldest night school student, the Colonial cagers today leave for Clemson, S. C., with the hope that the pickings in Dixie will be easier than what they have found in three Mid-Western powerhouses.

Below the .500 mark—one win, three defeats—the Buffmen take the court tomorrow night against the Clemson Tigers in a regular Southern Conference contest. Before they shake the dust of tobacco from their heels, the local courtmen will have to battle two more of Dixie's finest—Wake Forest, Friday night, and Duke, Saturday night.

In the Tigers, Coach Reinhart's men will find a potential threat to their already-conceded conference championship. Clemson fought its way to the finals of the loop tourney in Raleigh last year before falling to Duke in the finals. Though hurt by graduation, they will place another sharpshooting team on the floor this year.

Wake Forest will be making a return engagement against the Colonials. It was the Deacons who bowed to Reinhart's cagers in their opening game and thus gave the local quint its only win of the year. But the story may be different this time. Out of the opening game, because of injuries, Herb Cline, a six-foot plus center, will be back in action in the return bout. He's the best scoring threat that the Deacs can offer and he may change the tune.

It is generally conceded that Duke represents the greatest threat to Colonial supremacy in the Southern Conference. Led by a giant sophomore, Bobby Gantt, the Blue Devils have picked up where they left off at titleholders last year.

Graduation riddled the Devil lineup, but the best sophomore prospects in years are filling the gap. Three members of Durham High's unbeatable court team—Gantt, Cedric Loftis and Garland Loftis—will be the key men in the Duke attack.

Santa Claus may have been good to a lot of little boys and girls during the holiday season, but he practically ignored the Buff cagers.

All that they got were three black marks on the wrong side of the ledger. The villains were Oklahoma A. & M., Oklahoma and Indiana. After enjoying themselves at the expense of Wake Forest, Coach Reinhart's courtmen suddenly found the going rougher. Coach Hank Iba's Oklahoma Aggies started the disastrous holiday season with a 39-28 win over the Buffmen. A husky forward by name of Jay Numan contributed 14 points to the Cowboys' cause and the locals were never in the game. After an early lead, the Colonials fell by the way and the Aggies won going away.

For most of the game, the Buff quint looked better than Oklahoma's Sooners a few nights later, but that didn't last long. Holding a nine-point lead late in the second half, the Colonials blew six-high when a lanky Oklahoma, Gerald Tucker, began hitting the basket with sensational regularity. Final score: Oklahoma, 32; George Washington, 28.

Despite Matt Zunic's 19 points, the Reinhartmen were in for another bad night against Indiana's Hoosiers. Demonstrating Mid-Western basketball at its best, Indiana romped to a 52-43 win. Surprising factor was G. W.'s 26-25 lead at halftime over a team whose very name makes basketball coaches shake in their tracks.

Up to date the season can be summed up in Coach Reinhart's brief, but enlightening statement: "We're just too inexperienced."

Forward Roy McNeil

### Athletic Dept. Studies Plan Of Expansion

By Charles Daugherty

• THE POSSIBILITIES and difficulties attendant upon the adoption of a recommendation that physical education be required five times a week were being studied by the Athletic Department this week, and a report was being formulated for submission to the Board of Trustees, according to Director of Athletics Max Farrington. This report will include a resume of the facilities of the University, of the formation and organization of the Athletic Department, and the changes and additions which must be made before any great enlargement of the present athletic program can be effected.

Farrington pointed out that the existing facilities of the Tin Tabernacle are being taxed to the limit by the present athletic program, which consists of two periods a week for both men and women. The gym is contracted for during every hour of the day and often far into the night, so that any expansion to five times a week would be out of the question.

**Athletic Expansion Asked**  
The recommendation was extended to all colleges, athletic clubs and organizations in the country, who were urged to request to extend their athletic programs so that every person in the country would have the opportunity to engage in some form of exercise, whether in the form of active competition or supervised systematic tuning up of muscles, so that the general health of the country could be improved. The high rate of rejections for physical reasons from the draft was said to have given rise to speculation as to whether an effort to (See **ATHLETIC DEPT.**, Page 4)

### Sigma Chi TDX Vie For Title

#### Unbeaten Greek Quints Battle Thursday in Gym

• SIGMA CHI, interfraternity baseball champions and undefeated in five games this year, will meet an also unbeaten Theta Delta Chi quint Thursday in the Tin Tabernacle in the finals of the Greek Court Tournament. Game time is 9:15.

The Sigs will enter the game as favorites, largely because they are champions, and also because they defeated last year the Choppers, who were champions of the Independent League and were composed largely of Theta Delta Chi men. The Theta Dels were the victors in the tougher league of the two leagues, however, and may provide sterner opposition than the Sigma Chis can handle.

Stars of the Theta Delta Chi team are Jim Donohue and Grail Dawson, who rank second and third in the individual scoring race with 44 and 34 points, respectively. Thursday's tussle will be the last appearance of the two as a unit, however, for Dawson enters the Navy Friday.

Sigma Chi boasts a well-balanced five with no outstanding stars, but with three of its men in the first fifteen high scorers.

Final standings for both leagues follow:

League A				
	W.	L.		
SX	5	0		
SN	4	1		
SPE	3	2		
PIKA	2	3		
PSK	1	4		
DTD	0	5		

League B				
	W.	L.		
TDX	5	0		
SAE	4	1		
KS	2	2		
KA	1	3		
TKE	1	3		
Acacia	0	4		

### Swim Meet Held

• APPLICATIONS FOR THE Intramural Swimming Meet January 17, at the Y. M. C. A. may be secured in the Student Club and will be accepted by the Intramural Department.

### Coeds to Meet Hood February 28

• BASKETBALL MANAGER Margaret Kinsman announces the following schedule for the coed class teams: Class games on February 18, and 25, at 8:45; Class game on March 4, at 8:45; Maryland University on March 7, Odd-Even on March 18, and the final varsity game on March 25.

### Scoring Pace Set by Zunic; Mates Trail

• LEADING SCORER of the G. W. basketball squad, as the Colonials invade the deep south for the first time as members of the Southern Conference, is tall, lanky, Matt Zunic.

Coach Reinhart's favorite forward, has opened the season with the same blistering pace he used last year when he topped the Colonial scoring column. To date his 23 goals and eleven foul shots for a total of 57 points in four games, are currently leading the pack.

Way behind in second place are two sophomore newcomers. Both boys are playing here at the University for the first time. Tom Keesey and Ed Gustafson, two boys from out of town, who have worked their way to positions on the squad, have a total of 22 points each. However Keesey scored his total in three games, while Gustafson required four.

The most amazing factor found in an analysis of the statistics is the fact that the only members of the starting team who were able to score over ten points were Gustafson and Zunic.

	Games	Gls.	Fts.	Pts.
Zunic	4	23	11	57
Keesey	3	9	4	22
Gustafson	4	7	8	22
Myers	3	6	12	12
Gallagher	3	3	3	9
McNeil	4	3	2	8
Gilham	4	3	1	7
Reichwein	1	2	0	4
Rausch	2	2	0	4
Jackson	3	2	0	4
Groetzing	1	1	0	2
Sokol	1	0	0	0
Barnett	1	0	0	0
Shumacher	2	0	0	0
Fitzgerald	3	0	0	0
Totals	58	35	151	

## BEFORE I FORGET

By CHARLES DAUGHERTY

• WHEN, in years to come, the names of Colonial basketball greats are recalled, there will be many brought to mind, for the list of Buff men who have achieved fame on the court is as long as your hand, but none of them will merit more consideration than a lanky forward currently taking up the burden of carrying the Reinhartmen through a successful season.

Last year Matt Zunic established an all-time individual scoring record when he scored 243 points in a 22-game schedule, bettering the record established by Bob Faris by a single point. Coach Reinhart's crew won 18 games and lost only four, for the best record of any Buff quint, and when it was all over Coach Reinhart had to pinch himself to be sure that he wasn't dreaming.

**Zunic Provided Spark For Quint**  
All through the season Coach maintained that the team was lucky to compile such an impressive record, that it wasn't as good as the records showed. He emphatically stated that without Zunic the team would possibly have won half of the time. It was distressingly evident to followers of the Buff that when "Mad Matt" was on the bench getting a few minutes of well-deserved rest the old spark just wasn't there and that the only thing that could be done was to put Zunic back in when the going got tough.

In any team the most important player is not necessarily the star, the high scorer, the fastest runner, or what have you. The most important player is the spark-plug, and if he happens to be the star it is just a coincidence. Such a player was Tommy O'Brien, rated by many as the outstanding player in Buff court history, Bob Faris, "Reds" Auerbach and a few others. These are the boys to whom the players look for leadership in a pinch, in whom they have complete confidence.

Zunic is that man in the current edition of the Buff. So far he has been unable to win more than one game out of the first four, but it hasn't been for lack of effort or ability. He has scored 57 points in these four games, and at this rate will tally 270 points in the entire 19-game season. Thus decisively bettering his own record. At least one of the Colonial defeats can be directly attributed to inexperience. Oklahoma should have been beaten, and would have been if the Reinhartmen hadn't become panicky when the Sooners began to put on the pressure in the last few minutes.

**Conference Crown Would Salve Injured Feelings**  
It would be sheer hypocrisy to claim that Reinhart did not want to win all of these games in the worst possible way, particularly the one against Indiana. He most certainly did want to win them, for the reputation which George Washington has been building up over the last five years or so would have been greatly strengthened by a victory over the Aggies and the Hoosiers. A Southern Conference championship would be even sweeter, however, and, with the exception of Duke, there doesn't seem to be much in the way of serious opposition in sight.

The most serious defects of the team—occasional poor ball handling, flightiness, and inability to get the ball off the back board—all spring directly from inexperience. The boys were not aided, either, by the torrent of abuse and booing that was hurled at the referees in the most unsportsmanlike exhibition of partisanship I ever saw at a basketball game. The booing carried over (See **DAUGHERTY**, Page 4)

### THE CIGARETTE OF COSTLIER TOBACCOS

### Grid Bruisers Test Court As Flower League Opens

• A VERSION of Dr. Nelsmith's innovation that has never appeared elsewhere will be resumed Thursday when the Flower League opens its annual "football on a basketball court" season. The players will be members of the Varsity House who, although football players, will demonstrate their skill at bouncing a basketball around the floor.

Six teams, appropriately named, by the burly boys who write history on the gridiron, after several species of flowers, will form this year's league. The bowery names that the quints will bear are Lilies, Golden Rods, Eight o'Clocks, Night-Blooming Cereus, Bleeding Hearts and Century Plants.

Proving that they are just as spirited as the boys they teach, members of the University athletic staff will play in the league as the Century Plants. Captain of the old grade's five will be Bill Myers, while its members will include Ray Hankin, Johnny Baker, Bill Reinhart, Max Farrington and others.

ership of Captain Dan Snyder. Al Romasco will head the Eight o'Clocks, John Pollock was elected captain of the N. B. C's, Johnny Picco is top boss of the Bleeding Hearts and Creme will be chief of the Lilies.

The complete season schedule follows:

Jan. 8—Thurs. 8 p.m.: Goldenrods v. Bleeding Hearts.  
Jan. 10—Sat. 1 p.m.: Eight o'Clocks v. Cereus.  
Jan. 10—Sat. 2 p.m.: Lilies v. Century Plants.  
Jan. 11—Sun. 10 a.m.: Goldenrods v. Cereus.  
Jan. 11—Sun. 11 a.m.: Bleeding Hearts v. Century Plants.  
Jan. 12—Mon. 8 p.m.: Eight o'Clocks v. Lilies.  
Jan. 12—Mon. 9 p.m.: Century Plants v. Goldenrods.  
Jan. 13—Sun. 9 a.m.: Cereus v. Lilies.  
Jan. 13—Sun. 10 a.m.: Eight o'Clocks v. Bleeding Hearts.  
Jan. 13—Mon. 8 p.m.: Lilies v. Goldenrods.  
Jan. 13—Mon. 9 p.m.: Century Plants v. Eight o'Clocks.  
Jan. 25—Sun. 10 a.m.: Cereus v. Bleeding Hearts.  
Jan. 25—Sun. 10 a.m.: Eight o'Clocks v. Goldenrods.  
Feb. 5—Thurs. 8 p.m.: Lilies v. Bleeding Hearts.  
Feb. 5—Thurs. 9 p.m.: Century Plants v. Cereus.

# Final Examination Schedule

## January 23-January 31, 1942

The examination schedule published below has been prepared on the same basis as on previous years. Any necessary changes which are made will appear in the next issue of The Hatchet.

The class schedule is suspended during the examination period. Examinations will be two hours in length. Books and scratch papers may not be taken into the examination room unless authorized by the instructor in charge.

Third-group courses are not included. Courses in Law and Medicine will be arranged by each school involved. Conflicts which cannot be adjusted with the instructor, and errors should be reported to the Registrar.
